

User Acceptance Testing (UAT)

Date: 18 June 2026

Project Name: Online Complaint Registration System

Project Overview

Project Name

Online Complaint Registration System

Project Description

Online Complaint Registration System is a MERN Stack based complaint management platform that enables users to register complaints online, track complaint status, receive notifications, and allows administrators to efficiently manage and resolve complaints through a centralized dashboard.

Project Version

Version 1.0

Testing Period

18 June 2026 to 18 June 2026

Testing Scope

Features Tested

- User Registration
- User Login
- Complaint Registration
- Complaint Tracking
- Complaint Status Update
- Complaint History Management
- Notification Management
- Admin Dashboard
- Complaint Resolution Workflow

User Stories Tested

- User Registration and Login
 - Complaint Submission Workflow
 - Complaint Tracking Workflow
 - Complaint Resolution Workflow
 - Notification Management
-

Notes

- All major functionalities were tested successfully.
 - Both positive and negative test scenarios were considered.
 - Complaint registration and tracking worked as expected.
 - Notification functionality performed correctly.
 - No critical issues were identified during testing.
 - The system is ready for deployment and academic evaluation.
-

Final UAT Status

 **PASSED**

The Online Complaint Registration System successfully met all acceptance criteria and user requirements. The platform demonstrated stable performance, accurate complaint tracking, secure authentication, and efficient complaint management throughout the testing process.
